# FHSU Informatics students develop website for southwest Kansas bands

Elevate your southwest Kansas music experience with a new website for local rock bands Aether and Thunderbird Hotel, enhancing their digital presence. This new website consolidates music, media and event schedules into a user-friendly platform, fostering a broader audience reach and interaction.

Aether and Thunderbird Hotel, originating from Dodge City, is a four-piece rock band that shares guitarist Hugo Hernandez and travels all over the state.

"I was very excited when I was approached with the idea of having a website for the southwest Kansas music scene," Hernandez said. "I saw this as a great opportunity to help promote and solidify the music scene in our area."

## Key Features of the Website

- Dedicated Band Pages: Explore Aether and Thunderbird Hotel's history, social media and exclusive content
- Shared Event Calendar: Stay informed about upcoming performances and showcases
- Announcements Board: Get the latest news and updates from the bands

Check out the live website here!
